PROJECTS

Moodle

Jan 2016 - Mar 2016

it was about ,i have to make a on line assignment and e-learning website which allows students and

teachers to share assignment online and also posts and discuss about given projects and activities going on in campus.

Image Captcha Validation

Jan 2016 - Mar 2016

this project was basically about to provide a platform for captcha validation if a website finds a user

ambiguous, we have implimented many types of captcha validation such as image,puzzle,identipic,

multimodel etc.
